The exception would be if only one person has requested that day off, then a second employee could be allowed off and personnel would be adjusted accordingly.
- B. Each employee is allowed to pick five (5) consecutive dates within their first round selection. Any request beyond this would require prior approval of the Fire Chief or designee.
- C. Employees may take vacation days prior to March 1<sup>st</sup> on a first come first serve basis considering minimum staffing. Any dates taken prior to March 1<sup>st</sup> shall not count towards the employees 1<sup>st</sup> round selections.
- D. All vacation requests made outside the bidding process after the cutoff date of March 1<sup>st</sup> shall be subject to the schedule. This means vacation days will not take precedence over any other scheduled item.
- E. Employees may select not to participate in the bidding process. However all requests will be subject to minimum staffing requirements and selections of the employees who participated in the bidding process.
- F. If an employee changes shifts or stations the Company Officer and the Battalion Chief shall make every effort to accommodate previously scheduled items. If an agreement cannot be reached the employee with the least seniority will be required to secure an alternative means for coverage.

The same attempt should also be made during emergency situations. This desire is based solely on safety and the possible loss to family members rather than any issue of fairness.

## 310.0 MERIT PAY

The District recognizes the value of personnel commitment and positive influence that benefits the district due to performance of employees. The District will evaluate each employee based upon performance annually and rate them according to the District's evaluation system. The awarded performance evaluation rating will determine the merit pay for each employee based upon a percentage of the employee's annual salary. The merit increase will be added to the employee's annual salary in the next budget year after the performance evaluation.

### 310.1 TERMS AND DEFINITIONS

#### Above Average

On a regular basis, performance is characterized by high quality and quantity of work that exceeds most position requirements, key objectives, and management expectations. Employee demonstrates outstanding skills and abilities, and assignments are accomplished in a highly effective manner with limited guidance and direction.

#### Comments

This section is found on all of the Evaluation Forms. It is used to make additional comments regarding the performance or rating of the employee.

#### Exceeds Expectations

Performance consistently exceeds position requirements and management expectations. Resourcefulness and depth of knowledge are of the highest quality. Assignments are accomplished in an exceptional manner with minimal direction and are characterized by outstanding achievements seldom accomplished within the agency/institution.

#### Eligibility Date

Date the employee is eligible for the Merit Increase. The date will be January 1. Employees must have 12 continuous months of service to be eligible.

#### Meets Expectations

Performance meets all or most and may occasionally exceed work objectives and management expectations. Employee demonstrates good knowledge of job duties, and assignments are accomplished effectively with normal supervisory guidance.

#### Merit Pay Increase System

A merit-based pay system which incorporates pay and performance evaluation standards and establishes criteria for salary adjustments or lump sum payments for employees who meet requisite performance categories.

### Needs Improvement

Performance does not consistently meet management expectations. Requires more than normal guidance and direction. Improvement and/or development are necessary if the rater elects to continue the incumbent's employment.

### Performance Evaluation System

A system for comparing performance with pre-established standards of satisfactory performance. The District's performance evaluation system is located in Policy 302 and Procedure 209.

### Rater

A person designated to supervise employees and is responsible for developing, monitoring, and evaluating performance standards and results for employees who report to them directly (subordinates). Please Note: A rater must complete all subordinate reviews prior to being eligible for a merit pay increase based on their own performance.

### Standards

The performance standards describe in detail what is considered the satisfactory level of performance. This allows the rater to identify when an employee exceeds the standard or performs below the acceptable level of performance. The standard should be measurable, observable, realistic in terms of the job, within the employee's control, and expressed in terms of expected results.

### Task

The smallest essential part of a job. A unit of work activity that is a logical and necessary action in the performance of a job.

## 310.2 THE PERFORMANCE EVALUATION SYSTEM

The performance evaluation system will utilize the following four (4) rating categories to determine overall scores of employee performance and award increases:

### Exceeds Expectations

Performance consistently exceeds position requirements and management expectations. Resourcefulness and depth of knowledge are the highest quality. Assignments are accomplished in an exceptional manner with minimal direction and are characterized by outstanding achievements seldom accomplished within the agency/institution.

### Above Average

On a regular basis, performance is characterized by high quality and quantity of work that exceeds most position requirements, key objectives, and management expectations. Employee demonstrates outstanding skills and abilities, and assignments are accomplished in a highly effective manner with limited guidance and direction.

### Meets Expectations

Performance meets all or most and may occasionally exceed work objectives and management expectations. Employee demonstrates good knowledge of job duties, and assignments are accomplished effectively with normal supervisory guidance.

### Needs Improvement

Performance does not consistently meet management expectations. Requires more than normal guidance and direction. Improvement and/or development are necessary if the rater elects to continue employment.

### Full-time and Part-time Employees

To be eligible for a merit pay increase, an employee must have continuous employment in either a position in a regular, full-time or part-time position for 12 months. An employee is defined as one who has had continuous employment since their Date of Hire to their first anniversary date to be eligible to receive an increase on their Merit Date.

### Rehired Employees

Employees that are rehired into employment shall have their latest hire date become their merit increase eligibility date. This date will become their merit increase eligibility date for the remainder of their career.

### Extended Leave

Employees on any type of extended leave who miss their eligibility date will receive a merit increase upon their return. If at the time of the rating, the supervisor determines the employee has not worked enough hours to sufficiently rate the employee's performance, the supervisor can use the rating from the previous year's evaluation. Six (6) months of attendance during the rating period is not required. The employee's eligibility date does not change.

### Disciplinary Action

Employees who receive a written or greater conduct disciplinary action during the 12 month rating period are not eligible for a merit increase. The employee's performance evaluation and date of merit increase eligibility remain January 1.

### Performance-based Action

If an employee falls below "Meets Expectations" in one or more duty areas the supervisor should immediately address those areas and counsel with the employee. This will allow the employee an opportunity to improve in unacceptable areas before the end of the rating period.

If at any time during the evaluation period the supervisor determines that the employee's performance in one or more of the duty areas has fallen below an acceptable standard ("meets expectation"), the supervisor should immediately place the employee on performance-based probation, address those areas, and counsel with the employee. The probation period will not exceed 180 calendar days initially. The supervisor should develop a "Performance Improvement Plan" clearly defining what is expected, consistently monitoring, and providing feedback/counseling to the employee. If the employee's overall performance improves during the probation period but not to the level of satisfactory standards by the end of the probationary period, the rater can extend, but is not required to extend, the probationary period for an additional timeframe not to exceed 90 calendar days. If the employee does not exhibit performance improvement to the satisfactory level at the end of the second probationary period, the employee will be subject to a demotion, transfer, reassignment, or termination.

If an employee is placed on probation, the terms and conditions of the probation should be documented and a copy sent to District Headquarters for placement in the employee's official personnel file. If the employee's performance improves and the probation period is ended, written documentation of the

probation results should be sent to District Headquarters for placement in the employee's official personnel file. Employees are allowed to make a formal request for reconsideration of their performance evaluation rating by the next level of supervisor above the rater. Employees should always receive a copy of the completed and signed Performance Evaluation.

#### Promotions/Demotions/Transfers

Employees who transfer or receive a promotion or demotion will be eligible on their merit date to receive their merit increase. If an employee has been in the new position less than six months, the current supervisor has the option of conducting the PE or may request the PE from the previous supervisor.

#### Merit Increase Matrix

<b>Performance Evaluation Rating</b>	<b>Merit Increase As % of Annual Salary</b>
Exceeds Standards	1.50 %
Above Average	1.00 %
Unsatisfactory / Meets Expectations	0.00 %

Any employee that supervises other employees who are either management or supervisory personnel who fail to complete an annual evaluation of employees under their administrative control shall NOT be eligible for merit payments.

#### 310.3 FUNDING

If the District determines that funds are insufficient to implement the merit increases authorized in this policy or by any other policy that affects salary/wage increases for employees, the Chief, upon approval of the Board, may reduce the percentage of all authorized merit increases for all employees covered.

However, if sufficient funds should then become available at any time during the budget year to provide the merit increases for all employees, merit increases for employees may then be fully implemented by the District.

# Code of Ethics

## Policy 501.2

May 8, 2012

### Background

The Fire Service is a noble calling, one which is founded on mutual respect and trust between firefighters and the citizens they serve. To ensure the continuing integrity of the Fire Service, the highest standards of ethical conduct must be maintained at all times.

The purpose of this National Firefighter Code of Ethics is to establish criteria that encourages fire service personnel to promote a culture of ethical integrity and high standards of professionalism in our field. The broad scope of this recommended Code of Ethics is intended to mitigate and negate situations that may result in embarrassment and waning of public support for what has historically been a highly respected profession.

*Ethics* comes from the Greek word *ethos*, meaning character. Character is not necessarily defined by how a person behaves when conditions are optimal and life is good. It is easy to take the high road when the path is paved and obstacles are few or non-existent. Character is also defined by decisions made under pressure, when no one is looking, when the road contains land mines, and the way is obscured. As members of the Fire Service, we share a responsibility to project an ethical character of professionalism, integrity, compassion, loyalty and honesty in all that we do, all of the time.

We need to accept this ethics challenge and be truly willing to maintain a culture that is consistent with the expectations outlined in this document. By doing so, we can create a legacy that validates and sustains the distinguished Fire Service institution, and at the same time ensure that we leave the Fire Service in better condition than when we arrived.

**I understand that I have the responsibility to conduct myself in a manner that reflects proper ethical behavior and integrity. In so doing, I will help foster a continuing positive public perception of the fire service. Therefore, I pledge the following .....**

- Always conduct myself, on and off duty, in a manner that reflects positively on me, my department and the fire service in general.
- Accept responsibility for my actions and for the consequences of my actions.
- Support the concept of fairness and the value of diverse thoughts and opinions.
- Avoid situations that would adversely affect the credibility or public perception of the fire service profession.
- Be truthful and honest at all times and report instances of cheating or other dishonest acts that compromise the integrity of the fire service.
- Conduct my personal affairs in a manner that does not improperly influence the performance of my duties, or bring discredit to my organization.
- Be respectful and conscious of each member's safety and welfare.
- Recognize that I serve in a position of public trust that requires stewardship in the honest and efficient use of publicly owned resources, including uniforms, facilities, vehicles and equipment and that these are protected from misuse and theft.
- Exercise professionalism, competence, respect and loyalty in the performance of my duties and use information, confidential or otherwise, gained by virtue of my position, only to benefit those I am entrusted to serve.
- Avoid financial investments, outside employment, outside business interests or activities that conflict with or are enhanced by my official position or have the potential to create the perception of impropriety.
- Never propose or accept personal rewards, special privileges, benefits, advancement, honors or gifts that may create a conflict of interest, or the appearance thereof.
- Never engage in activities involving alcohol or other substance use or abuse that can impair my mental state or the performance of my duties and compromise safety.
- Never discriminate on the basis of race, religion, color, creed, age, marital status, national origin, ancestry, gender, sexual preference, medical condition or handicap.
- Never harass, intimidate or threaten fellow members of the service or the public and stop or report the actions of other firefighters who engage in such behaviors.
- Responsibly use social networking, electronic communications, or other media technology opportunities in a manner that does not discredit, dishonor or embarrass my organization, the fire service and the public. I also understand that failure to resolve or report inappropriate use of this media equates to condoning this behavior.

## Policy 502

### 502.0 DISCIPLINE

This section shall define and govern the usual and general types of disciplinary actions the District may use in administrating its personnel. All employees of the District except as hereinafter provided shall be subject to the provisions of these sections;

1. Members of the Board of Directors,
2. Fire Chief,
3. Persons employed to render professional or technical services,
4. Members of appointed boards, commissions, or committees,
5. Persons hired to perform temporary or contract services or labor, or persons drafted for service in time of emergency or disasters.

### 502.1 DISCIPLINARY LEVELS

In administering policy and procedure the District may utilize the following types of actions, as deemed necessary and appropriate.

Coaching/Counseling Sessions; as personnel are coached or counseled through issues the administering supervisor shall document the session. These sessions may be used as supporting instances for further disciplinary actions. These sessions do not require an employee's signature, as they are an explanation of the session from the supervisor's point of view. If these sessions are used as supporting items for a reprimand they shall be attached to the reprimand and presented in conjunction with the reprimand. If a coaching/counseling session is performed as a follow up to a reprimand then the documented session shall be signed by the employee and placed with the original reprimand.

Oral Reprimand; on the first offense, where the infraction is not a serious enough nature to immediately initiate more stringent disciplinary actions, a verbal warning may be given to the employee. For purposes of letting the individual know that it is an official warning, the supervisor shall state "This is a verbal warning" and the warning must be documented as such. The verbal warning shall remain in the employee's personnel file for one (1) year.

Letter of Reprimand; where the infraction is a repeat of a verbal warning or of a more serious nature a letter of reprimand may be given to the employee. A written statement from the Supervisor, stating specifically the conduct, omission, or neglect of duty of the employee warranting this action shall be prepared. The letter of reprimand shall be kept in the employee's personnel file for two (2) years.

Suspension; the infraction is repeated or of a serious nature a suspension may be given to the employee. Any Chief Officer may initiate the suspension of an employee, with pay. A written statement from the Chief Officer shall be prepared for the Fire Chief, stating specifically the conduct, omission, or neglect of duty of the employee warranting this action. If, due to the circumstances, it is imperative that the

employee be removed from the work place, the Fire Chief may suspend the employee, not to exceed two (2) shifts, without pay until such time that the Board of Directors can meet. If a suspension involves a non-shift employee the maximum suspension without board approval is five (5) working days. If the board is unable to convene within the time frame, approval from two (2) board members must be obtained to extend the suspension without pay. The suspension shall be kept in the employee's personnel file for three (3) years.

Demotion; involves an involuntary change of the employee's duties or classification, which may result in a loss of monetary compensation. Notice of an involuntary demotion shall be kept in the employee's personnel file for three (3) years.

Discharge; involves permanent termination of the employee from the District.

## 502.2 DISCIPLINARY PROCESS

All disciplinary statements, records, and documents must be signed and dated by the employee and supervisor issuing the disciplinary action before they go into the employee's personnel file. If an employee refuses to sign the documentation the supervisor shall state such on the documentation. The supervisor should if possible obtain a witness to such a refusal. All parties involved must sign and date the documentation. All documentation shall be expunged from the employee's personnel file upon the expiration date as set forth by the offense, as long as the issue is completely corrected.

Oral Reprimand; the employee shall be advised they are receiving a verbal warning and it shall be documented as such. The employee may submit in writing a response to the verbal warning. The response must be submitted within seven (7) days of receiving the verbal warning. All responses related to the oral reprimand shall be placed in the employee's file.

Letter of Reprimand; the employee shall be delivered a copy of the letter of reprimand. The employee may submit in writing a response to the letter of reprimand. The response must be submitted within seven (7) days of receiving the letter of reprimand. All responses related to the letter of reprimand shall be placed in the employee's file.

Suspension; if the act or omission occurs while the employee is on duty, or because of circumstances surrounding any infraction or alleged infraction, it may be important to relieve the employee from active duty until any final determination can be made. Any Chief Officer may suspend an employee with pay. If due to serious circumstance the employee must be removed the Fire Chief may suspend the employee a maximum of two (2) shifts without pay. If a suspension involves a non-shift employee the maximum suspension without board approval is five (5) working days. If the board is unable to convene within the time frame, approval from two (2) board members must be obtained to extend the suspension without pay. The employee shall be provided a written statement outlining the specific conduct, omission, or neglect of duty and the duration of the suspension. The employee shall have seven (7) days, from the date of his/her receipt of the written statement to submit a written response to the suspension. All responses related to the suspension shall be placed in the employee's file.

Demotion; an infraction is repeated or of a serious nature a demotion may be given to the employee. The employee shall be provided a written statement outlining the specifics of the demotion. ## 503.0 HARASSMENT

Harassment in the workplace is a violation of state and federal law. It is the intent of the District to comply with the EEOC guidelines on affirmative steps to prevent sexual discrimination and harassment. The District prohibits and does not tolerate harassment of any kind. Further, any form of retaliation or reprisal against any employee for reporting a harassment complaint is prohibited and will not be tolerated. All employees have a right to work in an environment free from discriminatory insult, intimidation or harassment due to sex, age, color, race, national origin, religion, sexual orientation, marital status, handicap status, veteran status, or membership in other protected groups. All employees, regardless of rank or position, should treat others with respect and dignity in a manner so as not to offend a co-worker.

The Fire District prohibits sexual harassment. For the purpose of this policy the term “sexual harassment” is defined as; 1) unwelcome sexual advances, 2) requests for sexual favors with or without accompanying promises, threats or reciprocal favors or actions, or 3) other verbal or physical conduct of a sexual nature, when submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s employment, submission to or rejection of such conduct by an individual, or such conduct has the purpose or effect of unreasonably interfering with an individual’s work performance or creating an intimidating, hostile or offensive working environment.

Examples of prohibited conduct include, but are not limited to, lewd or sexually suggestive comments, language or jokes of a sexual nature, slurs and other verbal, graphic or physical conduct relating to an individual’s gender or body, any display of sexually explicit pictures, greeting cards, articles, books, magazines, objects, photos or cartoons, and sexual flirtation, advances, or propositions.

In addition to sexual harassment, this District prohibits any other conduct in the workplace, whether physical or verbal, committed by supervisors or others, which involves discriminatory insults, intimidation or harassment due to age, color, race, national origin, religion, sexual orientation, marital status, handicap status, veteran status, or membership in other protected groups.

## 503.1 REPORTING

Any incident or discriminatory insult, intimidation, or harassment in any form, must be promptly reported to an immediate supervisor or any other manager (including the Chief, Deputy Chiefs and Battalion Chiefs) for purposeful investigation and corrective action, if warranted. All employees are encouraged to put any complaint in writing, especially if they have not received a satisfactory resolution as promptly as desired.

All employees are required to take a complaint to a higher level supervisor if he/she feels that their immediate supervisor may be violating their rights or failing to adequately protect the employee’s rights.

Any written complaint should specify the date of the event, the general nature of the event, give the exact works or conduct involved, give names of any witnesses to the complaint, and state whether similar incidents have occurred before. The complaint will be treated with confidentiality and will be responded to. Where investigations confirm complaints, appropriate disciplinary action will be taken, which may include termination, regardless of a first offense or not.

## 503.2 ENFORCING

Spoken or written comments which are vulgar, profane or offensive, or which disparage or insult another person's sex, age, color, race, national origin, religion, sexual orientation, marital status, handicap status, veteran status, or membership in other protected groups, are unacceptable conduct and will not be tolerated. Any employee, who engages in this type of conduct, including supervisors and others, shall be reprimanded and counseled or otherwise disciplined to assure that employees refrain from such conduct.

The District intends all management and supervisory personnel to assist in enforcing and carrying out these policies. All employees are also encouraged to assist by reporting any claimed violations of the Policy. The District pledges that no employee will be retaliated or discriminated against in any way for reporting any instances of conduct or statements which the employee believes to be inconsistent with these policies or which may require corrective action on the Districts part.

## 807.0 ALCOHOL/DRUG ABUSE

In recognition of the public service responsibilities entrusted to this District, and that drug and alcohol usage can hinder an employee's ability to perform their duties safely and effectively at all times, the following policy against drug and alcohol abuse is hereby adopted. It is this District's intent to not only; eliminate substance abuse and its effects in the workplace, but also to be compliance with the Drug Free Workplace Act of 1988, Pub. L. 100-690, Title V, Subtitle D.

### 807.1 EMPLOYEE RESPONSIBILITIES

It is the individual responsibility of each employee and applicant for employment to understand and abide by the policy. Any questions about the application of the policy may be directed to an employee's supervisor or any Chief Officer.

Employees with substance abuse problems must understand that they are personally responsible for seeking evaluation and undertaking rehabilitation. Any employee who is aware that they are dependent upon alcohol or drugs and who either voluntarily admits their dependency to their supervisor or voluntarily seeks treatment will not be subject to discipline for the first instance of admitting the problem or seeking treatment, provided the admission is not in any manner associated with a work related incident or, improper on-duty behavior; employees who are forthcoming in admitting a problem or seeking treatment for the first time will not be disciplined for doing so, however, the District will not consider the employee's actions to be voluntary and forthcoming if prompted by an accident, investigation, arrest or other incident.

Moreover, employees who conceal substance abuse problems from supervisors or who fail to voluntarily seek help place their employment with the District in jeopardy.

Employees must notify the District of any criminal drug statute conviction for a violation occurring in or out of the workplace no later than five (5) calendar days after such conviction.

### 807.2 DISTRICT RESPONSIBILITIES/DRUG TESTING POLICY

In appropriate cases, as an alternative to or in conjunction with disciplinary action, an employee may be ordered to seek assistance for substance abuse problems. Supervisors are responsible for reasonable enforcement of this policy.

A. Supervisors may request that an employee submit to a drug and/or alcohol test when they have a reasonable suspicion that an employee is intoxicated or under the influence of drugs or alcohol.

Employees in safety sensitive positions shall be subject to reasonable suspicion testing based upon the employee's drug or alcohol use or impairment while on the job, after being called for duty, or for off duty use that may impact upon the employees ability to perform the job when on duty or when called for duty.

Employees not in safety sensitive positions shall be subject to reasonable suspicion testing based upon the employee's drug or alcohol use or impairment while on the job of after being called for duty.

1. "Reasonable Suspicion" shall include, but shall not be limited to a belief based on objective facts sufficient to lead a reasonably prudent supervisor to suspect that an employee is under the influence of drugs or alcohol. Reasonable suspicion exists when there is a specific factual reason(s) for suspecting that the employee is using illegal drugs or alcohol, or where there is evidence that a specific employee is using drugs or alcohol in violation of the policy. Reasonable suspicion may be based on factors such as; 1) observable phenomena, such as direct observation of drug use or possession and/or the physical symptoms of being under the influence of drugs or alcohol; 2) a pattern of abnormal conduct or erratic behavior; 3) arrest or conviction for a drug related offense, or the identification of an employee as the focus of a criminal investigation into illegal drug possession, use or trafficking; 4) information provided either by reliable and credible sources or independently combined; 5) sudden changes in work performance including unexplained or excessive absenteeism, tardiness or workplace negligence; or 6) newly discovered evidence that the employee has tampered with a previous drug or alcohol test.

2. "Safety Sensitive Positions" shall include Firefighters, EMT's, Paramedics, and other employees that are engaged in hazardous work involving public safety and who must be able to think and react quickly, and uniquely depend on their judgment and dexterity in carrying out their duties, including the suppression of fires and the operation of emergency vehicles.

B. Post-Accident Testing. All safety sensitive employees who are directly involved in an accident while on duty are required to submit to a drug and/or alcohol test. The District reserves the right not to require post-accident testing after minor accidents or accidents that result in no injuries or no property damage in excess of five hundred (\$500) dollars.

C. Applicant Testing. All applicants for employment with the District, who advance beyond the written test, physical fitness test and interview stages, shall be required to take and pass a drug test, in accordance with Policy 102.4.

D. Request for Testing. A request for an employee to submit to drug and or alcohol testing will be documented in writing, with the facts constituting reasonable suspicion that the employee in question is intoxicated or under the influence of drugs or alcohol, or that an accident requiring testing has occurred.

E. Stopping Work Pending Completion of Testing. In any case where there is reasonable suspicion that an employee is under the influence of drugs and/or alcohol, or immediately following an accident that will require testing, the supervisor shall stop the employee from engaging in work and detain the employee for a reasonable time until the employee can be safely transported from the work site to the test site.

F. Searches. In any case where there is reasonable suspicion or following an accident that will require testing, a District supervisor has the right to search an employee or his/her clothing, lockers, bags, or equipment, with or without the consent of the employee. No employee shall have any expectation of privacy in lockers, quarters or equipment owned and issued by the District, and all lockers, quarters and or equipment and their contents shall remain at all times under the exclusive control of the District. The District, therefore, retains the right to inspect any locker, quarters or equipment for any reason at any time.

G. Notice to Law Enforcement. The District reserves the right to notify the appropriate law enforcement agency when they have reasonable suspicion to believe that an employee may have illegal drugs in their possession or in an area not jointly or fully controlled by the District.

H. Effect on Worker's Compensation Benefits. If an employee fails to obey any rule or policy adopted by the District relating to the use of alcohol or non-prescribed controlled drugs in the workplace, the workers compensation and death benefit provided for in Chapter 287, RSMO shall be reduced to fifty percent if the injury was sustained in conjunction with the use of alcohol or non-prescribed controlled drugs.

If the use of alcohol, drugs or non-prescribed controlled drugs in violation of the District's policy is the proximate cause of the injury, then the benefits or compensation otherwise payable under the workers compensation system, Chapter 287, RSMO, for death or disability shall be forfeited. If an employee's voluntarily use of alcohol results in intoxication, a rebuttable presumption exists that the voluntary use of alcohol in those circumstances was the proximate cause of the injury.

An employee's refusal to take a test for alcohol, drugs or a non-prescribed controlled substance, as defined by section 195.010, RSMO, at the request of the District, shall result in the forfeiture of workers compensation benefits under Chapter 287, RSMO if the District had sufficient cause to suspect use of alcohol, drugs, or a non-prescribed controlled substance by the employee or if the test was requested or required as a result of an accident.

## Policy 901

Category: FINANCIAL MANAGEMENT

Approved \_\_\_\_\_

Replaces: N/A  
April 12, 2010

### 901.0 OBJECTIVES

The investment policy of the Battlefield Fire Protection District shall be to:

1. Ensure the safety of the invested funds of the Fire District.
2. Maintain sufficient liquidity to provide adequate and timely working funds.
3. Attain the highest possible rate of return while providing necessary protection of principal consistent with Fire District operating requirements as determined by the Board.
4. Match the maturity of investment instruments to the daily cash flow requirements.
5. Diversify investments as to maturity, instruments, and financial institutions where permitted under state law.
6. Actively pursue portfolio management techniques.
7. Avoid investment for speculation.

### 901 .1 AUTHORIZED INVESTMENTS

#### AGREEMENTS

The Board of Directors President or designee shall serve as the investment officer of the Fire District and invest Fire District funds in legally authorized and adequately secured investments. To ensure the accomplishment of the policy and the objectives listed, the investment officer of the Fire District is authorized to invest the various funds of the Fire District in legally authorized and adequately secured certificates of deposit and/or Bank Money Market accounts with a maximum maturity of 12 months. No other investments shall be made without approval of a majority of the Board.

#### CERTIFICATES OF DEPOSIT

Bids for certificates of deposit may be solicited orally, in writing, electronically, or in any combination of those methods.

### 901.2 SAFETY AND INVESTMENT MANAGEMENT

The investment officer shall exhibit prudence and discretion in the selection and management of securities. Skill and judgment shall be exercised in order that no individual or group of transactions undertaken would jeopardize the total capital sum of the overall portfolio. The Fire District shall not allow speculation (such as anticipating an appreciation of capital through changes in market interest rates) in the selection of any investments. The investment officer shall observe financial market indicators, study financial trends, and utilize available educational tools in order to maintain appropriate managerial expertise.

### 901.3 LIQUIDITY AND DIVERSITY

To meet the investment objectives of the Fire District, the maturity of investments shall be targeted to coincide with the cash flow needs of the District. Assets of the Fire District shall be invested in instruments whose maturities do not exceed one year at the time of purchase. The investment portfolio shall be diversified to reduce the risk of loss of investment income from overconcentration of assets in a specific issue, a specific issue size, or a specific class of securities.

Nevertheless, the Fire District recognizes that in a diversified portfolio, occasional measured losses are inevitable, and must be considered within the context of the overall portfolio's investment return. Also, it is intended that investments in all funds shall be managed in such a way that any market price losses resulting from interest-rate volatility shall be offset by income received from the balance of the portfolio during a 12-month period.

### 901.4 INTERNAL CONTROLS

A system of internal controls shall be documented in writing. Also, they shall be designed to prevent losses of public funds arising from fraud, employee error, and misrepresentation by third parties, unanticipated changes in financial markets, or imprudent actions by employees and officers of the Fire Protection District. Controls deemed most important shall include:

1. Control of collusion.
2. Separation of duties.
3. Separation of transaction authority from accounting and record keeping.
4. Custodial safekeeping.
5. Avoidance of bearer-form securities.
6. Clear delegation of authority.
7. Specific limitations regarding securities losses.
8. Written confirmation of telephone transactions.
9. Limiting the number of authorized investment officials.
10. Documentation of transactions and strategies.

These controls shall be reviewed by the Fire Protection District's independent auditing firm.

### 901.5 SAFEKEEPING AND CUSTODY

To protect against potential fraud and embezzlement, the cash and investments of the Fire District shall be secured through third-party custody and safekeeping procedures as designated by the Fire District. Investment officials shall be bonded.

### 901.6 BROKERS / DEALERS

N/A

### 901.7 INTEREST RATE RISK

To reduce exposure to changes in interest rates that could adversely affect the value of investments, the Fire District shall use final and weighted-average-maturity limits and diversification.

## 901.8 MONITORING MARKET PRICES

Monitoring shall be done monthly and more often as economic conditions warrant by using appropriate reports, indices, or benchmarks for the type of investment. The investment officer shall keep the Board informed of significant declines in the market value of the Fire District's investment portfolio. Information sources may include financial/investment publications and electronic media, available software for tracking investments, depository banks, commercial or investment banks, financial advisors, and representatives/advisors of investment pools or money market funds.

## 901.9 INVESTMENT STRATEGY

The Fire District maintains portfolios that utilize specific investment strategy considerations designed to address the unique characteristics of the fund groups represented in the portfolios:

1. **Operating Funds.** Investment strategies for operating funds and comingled pools containing operating funds have as their primary objective the assurance that anticipated cash flow are matched with adequate investment liquidity. In order to accomplish this, the Fire District shall maintain adequate balances in short-term investments with necessary liquidity to ensure that sufficient funds are available for the continued operations of the Fire District. Funds shall not be invested in securities with stated maturities that exceed the reasonable expected expenditure time period.
2. **Debt Service Funds.** The Fire District shall maintain as its primary objective, the safety of principal with regard to all monies collected or allocated for debt service. Secondly, the Fire District shall seek to maximize the return on such funds while ensuring sufficient funds for timely payments of its debt obligations. In order to accomplish this, the Fire District shall invest such funds in amounts and maturity dates that most likely will meet the debt service requirements of the Fire District.
3. **Capital Improvement Fund.** The Fire District shall maintain as its primary objective, the safety of principal with regard to all monies collected. The Fire District shall seek to maximize the return of such funds, while ensuring sufficient funds for timely payments of its obligations.

The stated final maturity dates of securities held should not exceed the estimated project completion date.
